Hatching Your Future

ABOUT WINCORP

Wincorp International was started over 25 years ago as a division of Jamaica Broilers Group. The focus was to source, store, and consolidate cost competitive supplies to Jamaica in the most economical manner. Over the years, we have become professionals in sourcing and shipping products to meet our customers' needs. Realizing success through efficiency, Wincorp has identified new areas for growth. We believe if we can bring value to your business then we will always be a supplier of choice.

Our highly trained team understands the poultry industry. With this knowledge, we make suggestions on how customers can improve their performance. Wincorp International prides itself on supplying a wide range of products and services for any and all of your needs. Our

commitment to our customers has made Wincorp a major producer, supplier, and exporter.

Once a customer has placed their order, we are able to ship it directly to their door. To this end, we invested in Consolidated Freight & Shipping. This division offers warehousing and consolidated shipments, which helps our smaller clients ship cost effectively.

Being efficient, time conscious, and responsive to our customers' needs is what keeps us in business. We believe that a happy customer is our guarantee of a tomorrow. Our team is focused on having fun, making a profit, and being personally fulfilled at the end of the day; and that should shine through in your experience with Wincorp.
